### EDUCATION

**Dr. Babasaheb Ambedkar Technological University, Lonere , Maharashtra**  
Bachelors of technology in Computer Engineering

**2022 – Present**

**K.N Noorani Arts, Commerce & Science Jr College, Shahada, Maharashtra**  
Maharashtra State Board Of Secondary And Higher Secondary Education (HSC)

**2019 – 2021**  
Percentage:85.33

**Shri Mahavir English Medium School, Shahada**  
Central Board of Secondary Education (SSC)

**2008-2019**  
Percentage:85.33

### TECHNICAL PROJECTS

#### Parcel Logistic Platform

**Aug 2024 – Dec 2024**

- Developed a full-stack parcel logistics platform using HTML, CSS, JavaScript, Bootstrap, and PHP to manage and streamline parcel delivery processes.
- A parcel logistics platform is a web-based system designed to streamline and manage the complex processes involved in parcel delivery.
- Implemented real-time parcel tracking with unique tracking numbers, detailed history, location updates, and status changes.
- Implemented a responsive design to ensure that the platform provides a consistent and efficient experience across all devices, including desktops, tablets, and mobile phones.
- Utilized a database-driven approach for tracking parcels, customers, and drivers to ensure accurate and efficient logistics management.

#### KALAKRUTI Website

**Feb 2024 – Jun 2024**

- Developed a static art gallery website, "Kalakruti," using frontend languages HTML, CSS, and JavaScript to showcase a diverse range of art forms in a digital format.
- Designed and implemented a visually appealing layout with a focus on creating an immersive user experience for viewing art collections.
- Utilized CSS animations and transitions to create a smooth and engaging browsing experience for users.
- Built using HTML for the site's structure, CSS for its visual presentation, and potentially basic JavaScript for client-side enhancements .Because it is static, there is no database, or server side coding.

#### KEAR - Medical Healthcare

**Feb 2024- May 2024**

- Developed KEAR - Medical Healthcare, a fully responsive static website using HTML, CSS, JavaScript, and Bootstrap, tailored for the healthcare industry.
- Designed a modern, responsive layout with a focus on user-friendly navigation and professional aesthetics.
- Designed a user-friendly interface with intuitive navigation, ensuring that users could easily find relevant healthcare information and services.

### SKILLS

- Technical Skills: HTML5, CSS3 (Cascading Style Sheet), JavaScript, Bootstrap (Framework), JQuery, Responsive Web Design, SASS, Oops, C++, DSA, Prompt Design – Google Gen AI, Microsoft Word, Microsoft Power Point.
- Soft Skills: Communication, Active Listening, Teamwork, Coordination, Problem-Solving

### CERTIFICATIONS

- Udemy: Beginning C++ Programming - From Beginner to Beyond** :Acquired comprehensive knowledge of C++ programming, including object-oriented principles, algorithms, and efficient code design.
- NPTEL: The Joy of Computing using Python** : Gained hands-on experience with Python, focusing on fundamental programming concepts, data structures, and computational problem-solving techniques.
- Remarkskill Education: Artificial Intelligence with Machine Learning** : Completed an intensive summer training program focused on AI and ML applications.
- Prompt Design in Vertex AI – Generative AI Exchange by Google (April 2025)**: Completed Google's Generative AI Exchange lab on Prompt Design using Vertex AI.
